COLOR ANALYSIS Color Inventory

COLORS USED (IN APPROXIMATE AMOUNTS)

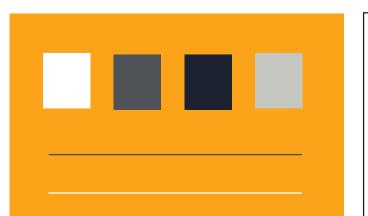

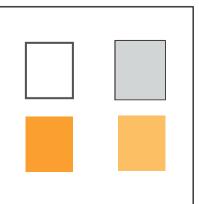

GRAPHIC COLORS & BACKGROUND

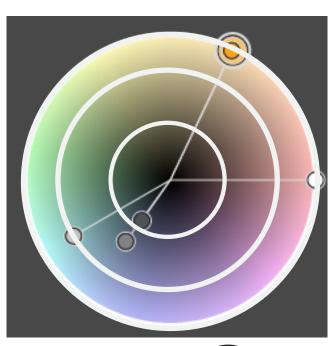

Color ANALYSIS Color Harmony

SATURATION

highly saturated — moderately saturated — desaturated —

BRIGHTNESS

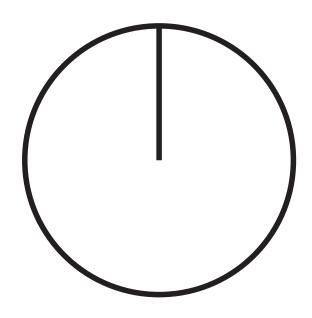

KEY

COLOR HARMONY

monochromatic

monochromatic colors lie along a single line

split complementary

like complementary, but with 3 color lines, 2 of which are close to each other in the wheel

complementary

colors lie along lines that go in opposite directions

analogous

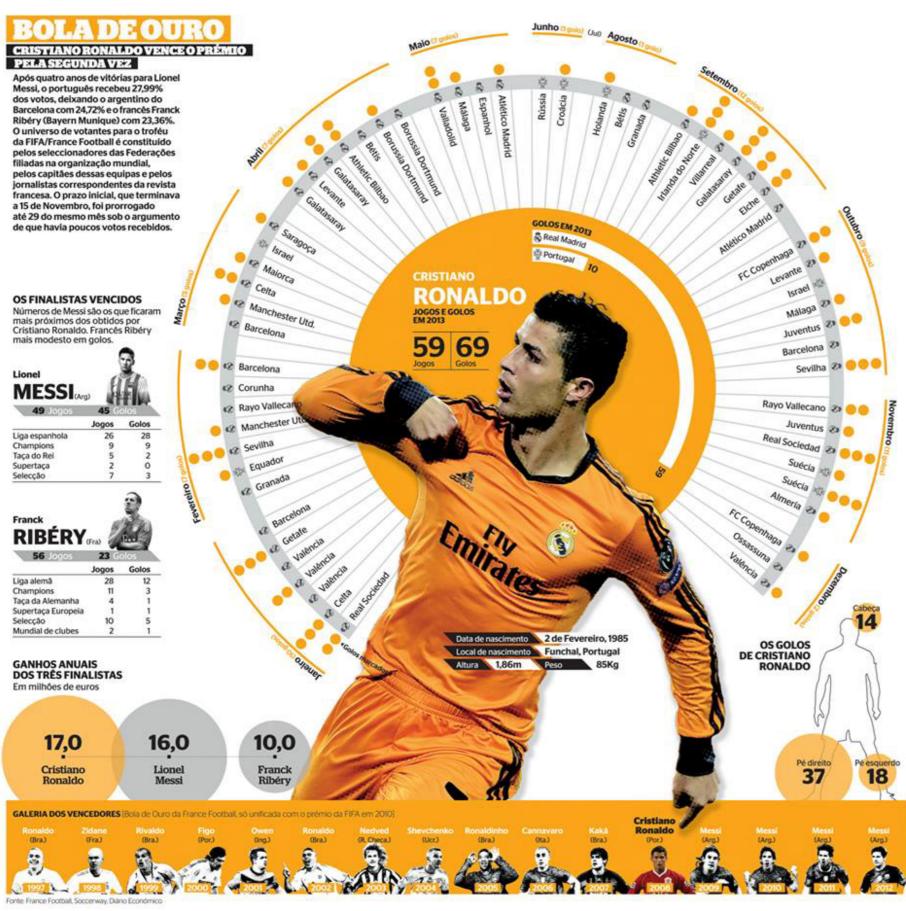

colors lie along lines that are all in the same quadrant of the color wheel

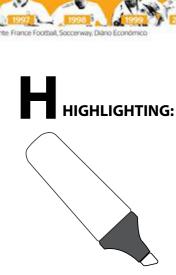

other

there are many other color harmonies, though they are far less popular than the 4 basic ones

COLOR ANALYSIS Uses of Color

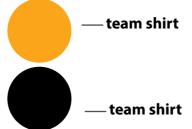

In this infographic, I see the author uses orange to make Ronaldo and the row of professional soccer players stand out.

ASSOCIATIONS:

I associate both orange and the black as the main colors on Ronaldo.

The overall tone I perceive is energetic and lively as the author combines the saturated orange, black, and white in this infographics. These colors are elements from Ronaldo's team shirt, which makes me feel like the tone is also harmonious.
